the ford modular engine is a popular swap for 1964 1 2 1973 mustangs fox body mustangs trucks hot rods and other muscle cars because these high tech engines provide exceptional performance and improved economy compared to their dated

counterparts found in mustangs and other fords since the 1990s installing a modular motor in a classic ford infuses new technology and all the benefits that come with it into a classic car modular engines feature an overhead cam design that has massive horsepower potential and are offered in 4 6 5 0 5 2 5 4 and 5 8 liter iterations these high tech 2 3 and 4 valve engines are readily available as a crate engine from salvage yards and in running cars this engine design has a large physical footprint and swapping the engine requires a thorough plan using the proper tools and facilities author dave stribling specializes in modular engine swaps and expertly guides you through each crucial step of the engine transplant process because of the large physical size many components such as brake boosters steering rods and boxes and other underhood components may need repositioning or modification to co exist in the engine bay stribling covers motor mount selection and fabrication suspension and chassis modifications aftermarket suspension options firewall and transmission tunnel modifications engine management and wiring procedures fuel systems exhaust systems electrical mods and upgrades and much more many older ford muscle and performance cars are prime candidates for a modular swap however shock towers protrude into the engine bay of these cars so modifications are necessary to fit the engine into the car which is also covered here swapping the engine and transmission into a muscle car or truck requires specialized processes and this insightful explanatory and detailed instruction is found only in this book if you are considering swapping one of these high tech engines into a non original chassis this book is a vital component to the process p p1 margin 0 0px 0 0px 0 0px 0 0px 0 0px font 12 0px arial

nearly forty years have passed and almost 3 million owners and enthusiasts still worship the classic beauty of the ford mustang 101 projects for the earlier models developed between 1964 and 1973 are the focus of this book the book is broken out into projects that concentrate on specific aspects of the car including engine drivetrain chassis suspension and steering brakes wheels and tires body and interior features high performance modification procedures restoration and maintenance tips details realistic and reliable shortcuts identifies the best and most current products on the market or a particular job

the first generation mustang is an enduring classic but it was built using 50 year old technology these cars use antiquated equipment that includes drum brakes breaker points ignition systems and 14 inch steel wheels the oem running gear is obsolete by today s standards but all of these mustangs can turn into high performance street machines that can compete with late model mustangs while certain special build and high performance models should be preserved many common v 8 mustangs can be transformed into high performance cars that rival the new cars of today the mustang can be upgraded and modified into a true driving machine by installing aftermarket suspension steering and driveline technology mustang

expert and former ford engineer frank bohanan explains how to perform simple and important bolt on upgrades that radically increase performance he explains the rationale and process of installing a crate engine big high performance brake kits coil over shocks tubular a arms multi link rear suspension and many other projects that increase performance by leaps and bounds from mild to wild you are shown how to upgrade each component group in the car by stages according to budget and difficulty these components include engine transmission rear differential front suspension rear suspension steering chassis electrics interior tires wheels and more by completing these procedures and product installs you can complete an improved street car a high performance street car or a street track day car no other book provides the same level of information and instruction for transforming the first generation mustang into a car that performs with the best on the road today

in the past restoration guides have provided authenticity information such as accurate paint codes badges wheels and other equipment a bona fide hands on how to book for restoring your mustang from the ground up has not been offered for years this unique guide will cover the restoration process for every major component group and also provide detailed step by step restoration information for the most important procedures with clear insightful color photography to accompany this how to information any at home restorer can confidently restore a car and save a substantial amount of money in the process while restomod books have shown how to install latest technology on vintage muscle cars this book will focus on factory accurate restorations and some simple bolt on upgrades that do not detract from the collector value but rather enhance the reliability and performance of the car how to restore your mustang 1964 1 2 1973delivers a detailed explanation for finding the right model how to assess condition how to spot a fake and how to select the right car within your budget in addition the book will cover how to plan prepare and select the right tools this unique guide will cover the restoration process for every major component group and also provide detailed step by step restoration information for the most important procedures the latest techniques and best restoration products for each system will be discussed and detailed also the book discusses how to source parts and what you need to consider between new old stock and reproduction parts readers will also learn how to determine if a certain task is best left for a professional shop all crucial aspects of restoration including engines drivelines body interior trim electrical systems brakes steering and suspension will be profiled
