amphibious warfare letter of promulgation this curriculum guide builds upon the work of many contributors intellectual rigor and academic standards demand that the full scope of amphibious warfare be encompassed rather than the tracing of marine corps history emphasizing the landings of the great pacific war which had forged our modern corps the present course structure and content reflect the determination that 1 the history of amphibious warfare remains a valid intellectual endeavor 2 its scope greatly exceeds the study of the u s marine corps and 3 a historical survey of amphibious warfare is best approached from a maneuver warfare perspective exploring the various levels of war and their impact on each battle the levels of war would include the political strategic operational and tactical technical this construct of classes will also prepare students to become critical thinkers of warfare and thus better prepare them for future commissioned service to the marine corps instructors are cautioned to observe that this manual contains lesson guides not lesson plans instructors must devote time for serious background reading in recommended literature course texts and contemplation of a conceptual approach that will capture the imagination of their students another important objective of this course must be to stimulate original thought and persistent interest on the part of the student professional core competency objectives the primary objectives of this course are to provide prospective merchant marine officers a basic understanding of their role in our national security and to familiarize them with the basic principles and procedures for operating a merchant ship as a naval or military auxiliary in a wartime convoy or independent sailing situation

first multi year cumulation covers six years 1965 70

in addition to customary coverage of traditional topics and instruments the author provides detailed presentations for several topics not always found in other textbooks these topics include history of psychological testing early uses and abuses of intelligence neuropsychological foundations of ability factor analysis assessment of learning disabilities consumer assessment environmental assessment and courtroom testimony

this three volume set is intended for researchers clinicians and students in the family and related fields volume 1 includes abstracts of 976 family measurement instruments cited in the published literature 1929 1986 volume 2 picks up where the initial volume leaves off with abstracts of 367

instruments published 1987 1996 abstracts in volume 1 and 2 are preceded by overviews written by authorities in family studies that organize and review the instruments in each chapter volume 3 contains 168 of the instruments abstracted in volume 2 reproducing them in full along with their scoring instructions volume 3 also provides author instrument title and subject indexes for all three volumes an attempt has been made to include instruments in the handbook that are representative of all areas of family studies that are conceptually and psychometrically sound and that have been used to evaluate diverse populations publisher description

containing the public messages speeches and statements of the president 1956 1992

masters athletes are those that continue to train and compete typically at a high level beyond the age of thirty five and into middle and old age as populations in the industrialized world get older and governments become increasingly keen to promote healthy aging and non pharmacological interventions the study of masters athletes enables us to better understand the benefits of and motivations for life long involvement in physical activity this is the first book to draw together current research on masters athletes the masters athlete examines the evidence that cognitive skills motor skills and physiological capabilities can be maintained at a high level with advancing age and that age related decline is slowed in athletes that continue to train and compete in their later years including contributions from leading international experts in physiology motor behaviour psychology gerontology and medicine the book explores key issues such as motivation for involvement in sport and physical activity across the lifespan evidence of lower incidence of cardiovascular disease hypertension and diabetes the maintenance of performance with age challenging conventional views of old age and with important implications for policy and future research this book is essential reading for students and practitioners working in sport and exercise science aging and public health human development and related disciplines

in one volume the leading researchers in industrial organizational assessment interpret the range of issues related to industrial organizational tests including test development and psychometrics clinical applications ethical and legal concerns use with diverse populations computerization and the latest research clinicians and researchers who use these instruments will find this volume invaluable as it contains the most comprehensive and up to date information available on this important aspect of

practice
